

Billing Plan

A billing plan defines how much the user pays for using the Internet service. This page displays the list of all billing plans defined in the system. Each plan is displayed in a tabular format with name of plan, plan fee, Type of plan, plan creation date. There are 3 types of plan:

- **Fixed Time:** This plan has a fixed time duration. The plan expires once the time period is reached irrespective of whether the user used the service.
- **Time Usage:** This plan has time usage limit. The plan expires once the given time is used up or the validity period is reached.
- **Bandwidth Usage:** This plan has bandwidth usage limit. The plan expires once the given bandwidth is used up or the validity period is reached.

Step1:-

Creation of Plan

Click on the '+' icon to create or add a new plan in the Unibox. A modal form will be displayed that collects the information required to create a new plan.

The fields marked with asterisk (*) are mandatory.
