

How to setup IDS integration

1. Click on **PMS** under **billing** tab.
2. Click on **configure** option.
3. Click on **checkbox** in front of **enable PMS**.

4. Select the **IDS fortune** from **PMS type** drop-down list.
5. Enter the **port**, **IP address** of IDS server and **PMS Timeout**.

6. Click on **save** button.

Fields

Enable PMS	If checked, PMS configuration is enabled.
PMS Type	Select one of the predefined PMS configurations.
IP Address	Provide IP Address of PMS Server.
Port	Provide Port of PMS Server.
PMS Timeout	Provide PMS timeout in Seconds. (Recommended is 5 seconds and minimum value is 1 second).

NOTE: -

IDS server should be reachable from unibox.
